Sweet advertising

Your partner for personalised confectionery and branded products. Highest quality and responsibility during production, while handling edibles and towards the environment is very important to us. Therefore we received the internationally recognised IFS certificate since 2003 at a higher level.

We individualize fruit gums, candies and chocolate products made through our own production and enjoy the confidence placed in us by strong brands, such as Dextro Energy, Ferrero, My M&M's®, Katjes, Tic Tac, Pulmoll and many more.

Our in-house print shop makes us largely independent and therefore efficient. Together with you, we will develop suitable promotional products for the appropriate platform and respective advertising contacts.

Through likeability, quality, originality and individualised advertising print, advertising impact, popularity, and image which are necessary to ensure long-term customer loyalty, are strengthened.

Experience advertising with all 5 senses!

Seal for certified organic products of the European Union EU-/Non-EU Agriculture

DE-ÖKO-007

Compostable "seed" symbol „♻️" is a registered trademark of European Bioplastics e.V. in the EU."

7P0430

IFS certified Certificate of the International Featured Standards For the casting of fruit gum and chocolate and packing of confectionery

UTZ certified Seal of quality for sustainable cultivation of cocoa.

Sweet advertising impact!

... sustainable with compostable advertising bags!

Do your bit for environmental protection and take the first step with compostable packaging, out of renewable raw materials.

Packaging material which features the protected compostable "seed" symbol is tested and certified in accordance with the European standard EN 13432. The requirements given by this standard are proven by accredited laboratories and confirm the compostability of the packaging including the print colours under ideal compost conditions.

With the use of compostable foils we can guarantee a minimum shelf life of 6 months, with proper storage.

Help us to protect the environment!

Notes for printing on different materials and colours:

1. How does an identical printing look like on different tin colours?

white tin

matt black tin

silver coloured tin

gold coloured tin

silver coloured tin with white background

gold coloured tin with white background

According to the motif, it is advisable to print the motif on a white background. This white layer will be charged as an additional colour.

2. How does an identical printing look like on different colours of the peppermint card?

gold

silver

black

green

blue

red

yellow

white

According to the motif, it is advisable to print the motif on a white background. This white layer will be charged as an additional colour.

3. How does an identical print look like on foils with or without white background?

white bag

transparent foil with white background

transparent foil without white background

When printing on white foil, it is advisable to print the motif on a white background. This white layer will be charged as an additional colour.

4. Which data are necessary to produce the artwork?

- Data information sheet
- Template

Data information sheet

Please consider the following points:

Template:

We will initially supply you with a data information sheet and a template (eps- or pdf-file) of the requested item. We ask you to prepare your motif according to this file.

Mandatory text:

Manufacturer/distributor, best before date and ingredients are mandatory texts, which are shown as a blue frame on the template. If you want to print this area as well, please make sure that this information still needs to be legible.

Manufacturer/distributor and ingredients are printed in a logo or motif color.

The list of ingredients according to the content is added by us to your motif with our font.

For tins: The list of ingredients is indicated on the bottom of the tin.

The best before date and the batch no. is generally printed on the back of the bag during production.

The best before date, batch no. and manufacturer/distributor are generally printed on the side of the tin during production.

We reserve the rights for product-specific adaptations.

Images:

Please send your images (color and grayscale) as original files with minimum 300 dpi (in CMYK). Bitmaps in 1200 dpi – a vectorised file is highly recommended for this. Embedded images can't be edited by us, so please send us the original file as well. The alteration of data, which does not correspond to the points mentioned above, causes additional costs.

Font:

The smallest yet legible font size for a positive print is 6 pt. and for a negative print 8 pt. All fonts must be converted to paths (vectorised). If this is not possible we will need your original fonts.

Positioning:

Please keep in mind, that you should not position relevant parts of your motif too close to the format edge. Otherwise we cannot guarantee an ideal positioning of your advertising.

Control mark:

The control mark is mandatory if it is shown on the template. It can be visible on the backside of the product.

Embossment:

Lines must be at least 0.55 mm thick. The distance between two lines must be at least 0.55 mm. The motif cannot contain small or fine fonts/text. The minimum line thickness is also valid for fonts/text. The motif cannot have a raster.

Customised chocolate bars:

The motif should not have small, fine fonts or filigree graphic elements and it should not be with a raster.

The proportion between height and distance of the elevated area is 1:0,7.

(Example: The distance between two elevated areas is 1,4 mm, then the height of the elevated areas is 2 mm)

Digital print files:

Please send us your digital data with color specifications according to Pantone or HKS, or for prints according Euroscala (CMYK) with a binding print/proof. We will check and prepare your data for the suitable print procedure.

Printing:

bags, blister pack, foil: Flexo printing or digital printing

tins: Pad printing or digital printing

outer package: Offset printing

Program-versions:

Adobe Illustrator CC

Adobe InDesign CC

Adobe Photoshop CC

Data delivery by:

E-Mail

ftp-Server

Data medium: DVD, CD

Bag and stand-up pouch sizes:

Our bags and stand-up pouches are available in many different sizes, printed and filled according to your requests. Filling quantities refer to the standard fruit gum shape (b) bear. Filling quantities may vary according to the chosen fruit gum shape. Please contact us. We are looking forward to explain your options and to send you a detailed quotation!

Stand-up pouches:

Sizes:	Content:
60 x 80 x 105 mm	100 g
60 x 80 x 150 mm	220 g

Bags:

Sizes:	Content:
85 x 60 mm	10 g
85 x 75 mm	10 g
100 x 60 mm	15 g
100 x 75 mm	20 g
100 x 95 mm	30 g
120 x 60 mm	20 g
120 x 95 mm	50 g
120 x 120 mm	60 g
150 x 95 mm	100 g

(Images are not actual size)

Important information

Printing processes:

We work with 5 printing processes:

- Flex print and digital print (for flexible packaging materials)
- Pad print and digital print (cans)
- Screen print (Advent Calendar "standard")
- Offset print (Advent Calendar "personalised")

It shall be our decision exclusively whether and which product will be manufactured using the printing process.

For technical reasons, register differences cannot be avoided in the printing processes listed. With Flex print, register differences of up to 5/10 mm in the motif can arise. Please request the data sheets that correspond to our various products.

Over delivery and under delivery:

For technical reasons, over deliveries and under deliveries of up to 10% of the total amount cannot always be avoided.

Colours:

We work with translucent colours among others. Translucent colours do not always cover a surface completely and often do not result in the desired colour unless a white base is applied beforehand.

Please list your colour requests in detail. We work with HKS or Pantone colours. We do not work with RAL colours. Colours very similar to RAL colours can be achieved (using Pantone or HKS). Colour templates in the form of letterhead, business cards, brochures, etc. only serve as a rough guide. The printing result can vary due to differences in the material. We will make efforts to achieve the desired colour tone. However, we cannot take responsibility for the result without a precise HKS or Pantone colour specification. Variance in nuances with the HKS or Pantone colours is no reason for return.

As mentioned above, we work with translucent colours, in certain cases on clear materials.

Each motif and each product can and must be treated individually. It is not possible to account for every eventuality beforehand in writing. You will find basic information here and in our data sheets. However, we cannot assume unconditional responsibility for this information. An individual and specific telephone consultation, tailored to your product and motif is available through our specialists. For this purpose, we ask that you send us your desired print motif. Without a sample of the print motif, we cannot provide a consultation.

Please do not send us any films or manuscripts. We work exclusively with own films or manuscripts.

When sending digital information, we require a copy of the motif in the form of a colour sample. The colours should be colour-consistent if possible. It is not possible to print without a motif sample on paper and colour-consistent proofs.

Perishable foodstuffs:

We would like to point out that foodstuffs cannot be returned or exchanged. Inspect the goods immediately upon receiving them and notify us of complaints within 24 hours.

Returns sent later than this cannot be accepted. Once foodstuffs leave our premises, we no longer have control over them. Therefore, we can neither accept responsibility for quality nor for suitable treatment of the food in this regard.

Damages:

Delivery damages must be noted on the consignment form and acknowledged by the forwarding agent. Damages to pallets, which are not noted on the consignment form, cannot be claimed as delivery damages. Upon delivery, be sure to check for a clean and orderly application of shipping straps and foil packaging. Irregularities must be noted and photographed immediately.

Delivery dates:

Apply to date of shipment within and/or on a delivery week and/or day, respectively and never to the actual date of delivery.

Delivery dates can neither be confirmed nor are they to be considered binding. We work with forwarding agents of our choosing. However, upon transfer of goods we cannot be made accountable. You may designate your own forwarding agent or courier, if desired.

Fixed delivery dates will not be confirmed and no responsibility will be assumed for fixed delivery dates that are not met by the forwarding company.

Delivery dates shall apply after an approval for printing is received, not upon receipt of the first proof. Without an approval, printing will not begin. Without an approval, no delivery date can be confirmed. A correction in a proof print that we create for you is not considered an approval for printing. Your correction will be re-worked and you will receive a new proof for inspection and approval.

Corrections:

Please read the text in our proof prints carefully. If you have problems understanding any part of a proof, call us. We will be happy to assist you. We do not assume responsibility for approved prints or for errors of any sort that you may have overlooked. An approval from you is considered an unlimited and irrevocable part of a work order.

All preparatory work performed by us up to the approval will be invoiced, even in the event that the work order is cancelled.

For unaltered reprints, you will also receive proof prints with a request for inspection and approval. Colour deviations within an unaltered reprint are technical in nature and cannot be avoided. Colour deviations in nuances shall not be accepted as grounds for returns.

Two proofs will be created for you free of charge. Beginning with the third proof, we reserve the right to charge a handling fee. Create your motif before remitting work to us. We would be happy to offer you consultation. Feel free to contact us.

It is also possible to receive design recommendations from us. You can receive pricing information upon request once you have stated the amount and type of work to be done.

Original press proofs are available, yet they will be billed individually depending on the motif. Please keep in mind that a proof run delays the delivery by 5 working days. An additional proof run delays the delivery by another 5 working days, and so on.

Returns

must be documented. At least 10% of a total amount must be returned as an originally packaged unit as evidence. A return involving printing must also affect at least 10% of the total amount and be documented.

Returns regarding taste and appearance of foodstuffs can only be accepted when the products were stored and treated in manner suitable for foodstuffs. You can request information regarding expiration dates and other important details at any time. For example, never store chocolate products above room temperature. Fruit jelly products are sensitive to heat and moisture.

Some of our products are packaged according to weight and some according to amount. Deviations in the amount per covering box vary according to machine and product. The total end amount is checked and documented. If deviations occur per packaging unit, please check the total end amount.

Our team is available to answer all of your questions. Our staff can competently answer any questions you might have regarding our products, prints, digital storage media, and pricing.

However, we do ask that you remain patient should short waiting periods arise. It is important to us to take the time to serve all of our customers and to fulfil requests to your complete satisfaction.

For the security of both parties and to avoid communications problems, please ask for written confirmation of pricing, delivery times, and technical guidelines, etc.

We offer datasheets in our catalogue which list further information for each product. Questions regarding these datasheets may also arise. Please contact us to receive more information. The datasheets have been created for each product and consist of a single, loose page. Please request the datasheet for the product you desire.

We wish you the best of success with your sweet advertising.

Our general terms and conditions of business apply to this information and are attached or can be requested.

Each advent calendar one of a kind!

Give away Collection

NOVELTY 2016

How does the Give away Collection work?

Square vector graphic

+

Fixed component

→ Logo

=

Unlimited different "Smallest (Advent) calendars in the world" offer a unique advertising experience!

Unique & innovativ!

Each article one of a kind!

Give away Collection

NEW

How does the Give away Collection work?

- By using a **square vector graphic** (approx. 3 MB), unlimited **design variations** can be created through scaling and rotation.
- A number of **fixed components**, such as logos and slogans are added. These then appear on the items every time in the same way, this applies as well to the ingredients list.
- Ideally, the vector graphic should be colorful and unusual (i.e. contain smaller and larger components), to improve the uniqueness of each bag.

Which items are possible?

- All items in bags, flowpacks or stand-up pouches as well as Smart or Sweet Cards, chewing gum in blister packs and the Smallest Event / (Advent) calendars in the world.

What does the Give away Collection offer?

Individuality

- No item is the same!
Turn promotional gifts into unique advertising opportunities.

Originality

- The layout variations are unique and unlimited –
Design for your communication.
